LEAD CONTROL NUMBER 12253

1

The following investigation was conducted by Special Agent MARTHA A. FITZPATRICK on August 9, 1995:

ANN PATTON, Department of Veterans Affairs (VA), 23202624, date of birth January 27, 1970, home address 125 Northwest 15th Street, Oklahoma City, Oklahoma, contacted writer to advise that information that Dr. PAUL HEATH is providing to the Federal Bureau of Investigation (FBI) and the media is inaccurate. PATTON works with HEATH at the VA and after seeing the television news last night she wanted to warn the FBI that HEATH is not a credible witness.

PATTON stated that she did not believe HEATH's account of the sighting of the one legged man in front of the Murrah Federal Building. She had not heard HEATH talk of the one legged man in front of the building until she saw it on the news last night. HEATH had a parking space in the lot under the Murrah Federal Building and always used the south entrance of the building. HEATH rarely left the building during working hours and never used the north entrance.

HEATH has told several different versions of a story about seeing MC VEIGH in the Murrah Federal Building prior to the bombing. As a concerned citizen PATTON wanted to report that HEATH is probably making up the stories to seek fame. Everytime HEATH tells someone what he has witnessed, his stories are exaggerated.

PATTON would like to see justice brought to whoever was responsible for the bombing and felt that she should notify authorities that HEATH's stories were probably fabricated. PATTON has spoken with several VA associates who are also concerned that authorities might take credence in HEATH's stories. She provided the following names and phone numbers of other full time VA employees: JOHN COLVIN 634-0512, DIANNE DOOLEY 670-2998 and DENNIS JACKSON 737-9147.
