

Man Says He Saw Mcveigh Driving By Federal Building

August 27, 1995 | Orlando Sentinel

OKLAHOMA CITY — A lawyer says he saw bombing suspect Timothy McVeigh driving a car around the federal building 24 minutes before the blast, the Los Angeles Times reported Saturday. James Linehan said he saw McVeigh at the wheel of a speeding car that drove around the Alfred P. Murrah Federal Building and into its underground parking garage. Linehan's description of the car matches the Mercury Marquis that McVeigh was driving when he was arrested. The government says McVeigh drove the explosives-laden truck used in the April 19 bombing, then fled in the Mercury. The bombing killed 168 people.
