

REPORT: MCVEIGH ON DRUGS

The Cincinnati Post (Cincinnati, OH)

March 20, 1997

NEW YORK -- Timothy McVeigh used crystal methamphetamine and marijuana in the months leading up to the Oklahoma City bombing, the New York Post reported today. Cindy Adams' column cited defense documents already excerpted in an article published on Playboy's Internet site. McVeigh is scheduled to stand trial March 31 on murder and conspiracy charges in the bombing, which killed 168 and injured more than 500.
