Washington, D.C. 20530

Re: *Trentadue v. CIA, et. al.*
Case No. 2:08-CV-788-CW
Murrah Building Surveillance Tapes

Dear Kathryn:

I am writing to request that you follow up with the FBI regarding the surveillance videotape from the two cameras mounted on the Murrah Building. I specifically requested the videotape from those cameras, but it was not produced.

Prior to writing this letter, I spoke with people who were on scene the morning of April 19, 1995, with knowledge about those cameras. There was a camera mounted on each end of the Building which monitored the street where the Ryder truck carrying the bomb parked. Later that day, several FBI agents were seen removing those cameras.

For your reference, Exhibit A is a photograph taken on the morning of April 19, 1995, after the explosion. It depicts one of the cameras, which I have circled. Exhibit B is another photograph showing both of the cameras, which I have also circled. On Exhibit B, the camera at the far end of the building is attached to a collapsed column. Finally Exhibit C, taken later that day, shows that the camera that was still attached to the Building had been removed by the FBI.
