Re: *Trentadue v. CIA, et. al.*
Case No. 2:08-CV-788-CW
Avoiding a Motion to Compel

Dear Ms Wyer and Mr. Bennett:

I am writing to follow up with you both on Ms. Wyer's letter to me of February 1, 2012, regarding the Regency Tower surveillance camera videotapes. I have DVD "1 B260" to which Ms. Wyer refers to in here letter, "but the film on that DVD is from the surveillance camera located in the lobby of the Regency Tower facing the entrance. Yes, in a blur, it does show the Ryder truck passing at the time indicated in Ms. Wyer's letter. What the FBI did not give me, however, were videotapes from the surveillance camera(s) mounted on the exterior of the Regency Tower Apartment building which, according to Agent Hersley' testimony, scanned the parking lot and 5th Street in Oklahoma City on the morning of April 19,1995.

For your reference, I have enclosed a photograph of the Regency Tower Apartments taken shortly after the *Bombing*. This photograph was taken from in front of the Murrah Building looking westward down 5th Street towards the Regency Tower

Apartments. If you “enhance” this photograph, you will see that mounted on the southeast corner of the Regency Tower Apartments at about the level of the 9th or 10th floors, is the exterior camera that Agent Hersley said “scans in front of the Tower building and also over towards the parking lot.”

When I said that Agent Hersley’s testimony about not viewing the entire videotape from this camera was “incredible,” what I meant was: Agent Hersley said, under oath, that his role in the *Bombing* investigation was “to identify and locate other individuals who may have been involved in the bombing on April 19th, 1995.” Yet he never took he time to look at that tape which scanned 5th Street towards the Murrah Building in order to view the explosion and images of the perpetrators!

I find equally hard to believe the FBI’s statement to you that there is nothing in the *Time Line* that the Secret Service prepared in the *McVeigh* case which “purports to describe any materials as [being] in the possession of the FBI.” I say this because the *Time Line* clearly states that the information about the Regency “surveillance film” came from a “conference call” with “FBI Director Freeh.”

This all having been said, when can I expect to receive a DVD containing the videotape footage taken on the morning of April 19, 1995 by surveillance cameras mounted on the exterior of the Regency Tower Apartment Building?

Thank you.
