The following investigation was conducted by Investigative Assistant ZELDA A. MORRIS at Oklahoma City.

A review was conducted of Bureau of Alcohol, Tobacco and Firearms (BATF) April 24, 1995, morning briefing. Information as follows:

On April 24, 1995, at 01:00:00 hours, the FBI examined video footage from an ATM machine located at the REGENCY HOTEL, Oklahoma City, Oklahoma, in which the RYDER truck used in the bombing is seen stopping in front of the REGENCY HOTEL for 25 to 30 seconds at 08:56:00 hours and then heads east. Additional information indicates that a four wheel drive vehicle had been used by the conspirators. The video shows a four wheel drive vehicle FORD EXPLORER passing five seconds prior to the RYDER truck. Analysis of the video footage indicates that the truck was parked in front of the Federal Building for as little as four minutes prior to exploding.

On April 23, 1995, at 19:30:00 hours, BATF determined that the Wisconsin telephone number comes back to DAVID PAULSEN's military supply, Antigo, Wisconsin.

The transmission of the facsimile message to Congressman STEVE STOCKMAN came from a Michigan telephone number, 616/966-0742, which comes back to WOLVERINE PRODUCTIONS and is closely associated to the Michigan Militia whose spokesman is MARK KOERNKE.

Oklahoma City Compound Post reported that DARYL BRIDGES is the possible financier for the bombing suspects.

The attached has been searched and met with negative results.
