The following investigation was conducted by SA FRANK  
B. GODBOLD III:

At Denver, Colorado

On June 6, 1996, a videotape identified as item 1B551, Q3413 was reviewed. The videotape depicted various scenes from the security camera system of the Journal Record Building in Oklahoma City for the period from April 4, 1995 to April 9, 1995. The internal areas of this building apparently displayed in the videotape include a loading dock, a stairway, a hallway, and a lobby. The only external area displayed on the videotape appears to be a west-to-east view from the south side of the Journal Record Building.
