Hey, John,

Sorry it has taken me so long to get back to you. Yes, I received your first email, and enjoyed the photos. It seems like a very nice place to visit.

I am hoping the next time we hear from Ross, that he has some good news. It now seem like things are dragging on. I am ready to get this project moving.

I see your son Jason is call back into service. Well,.. it is good experience for him, that he will be able to carry him a life time.

As far as Dave Ross groups.... I don't recall if they were the same group, but I do know that they were both fronts. Those groups did not actually exist.

As far as the guy in my office that showed you about the bombs, I can see his face,but right now... can not remember his name. Give me a few days, to go over in my mind what is name is.. hopefully it will come to me and I will try to remember.

Everything here is going well, considering it is Afghanistan. We had seven rocket attacks last week.

We normally only have about one every two or three weeks. But last week, we had seven in three days. Things are picking up, because the weather is getting better. I will be out of here at the end of June. Then I will be ready to start on that project.

Stay in touch... and stay safe.

Your Buddie

Don

Subject: Hey

Hello Don,

Hope this finds you well. Have not heard from you in a while. We are having a touch of summer early this year. We should have heard something on our story around May 22. That's what Ross has told me. That's when Lee is going to be back in country. Who knows. My son and grandson and I took a trip up to where we have Kernie. Here are a few pictures of the falls where we put him. For he always loves it up there. My son Jason has been called back up. For 18 months this time. He will be going back to group and heading your way in Aug. I am not too happy but what can I say.

Want to pick your brain if you don't mind. Looking at my disk, s. Back in our Patcon days. At one of the meetings we had with Doc. Grady (APRA). When I first turned Doc. Grady on to Dave Rossi. **Rossi talk about how his group robbed armored cars for a living and use that money to help the cause. He call his group two names one was VAM and the other was ARA. Were they both fronts for Dave Rossi or the same group? Both groups robbed armored cars for a living and gave the money to the causes.** I heard Dave use both names more than once. If you remember Doc Grady was going to sell and give them money for the stocks and bonds that they may get out of the armored cars. JJ was handling a lot of that case back then, but I know we have talked of this before.

Next. **The guy that worked out of your office that gave me the bomb classes, what was his name?** You know the big guy? He showed me what to look for at Jim Springes house back at Lookout Mountain back in Ga.

Well, think I have asked you plenty for now. How do you enjoy the pictures.

Your Friend,
John
